“Helping Kids Succeed in School and in Life”

Recommendation Letter for Youth Alive of North Texas:

April 28, 2010

This spring **Kyle Embry** and his team from **Youth Alive of North Texas** came out to present their **Bullying/Choices assembly** to our 7th and 8th graders at Frank Seale Middle School. The presentation is filled with dialogue and multimedia and also gets crowd participation. From the moment you walk into the presentation the music is booming and the DJ is getting the students engaged. In the assembly the team touches on all aspects of the subject you have selected. **They are also willing to stretch themselves to customize the presentation to the needs of your particular campus.** Kyle and his team keep you rolling with funny anecdotes and true applications. For us this presentation was a great service because it not only used current events and personal experiences to inform young people about a topic that is very relevant to the everyday challenges of public schools but it also **satisfied a TEKS requirement.** I recommend the anti-bullying presentation for every school. In fact, two other schools in our district have already insisted that Youth Alive come to their schools and present there. Everyone was talking about program for days after the event. We also look forward to having them back next year. Thanks Kyle!

Brandon Morgan,
CIS Campus Manager
Frank Seale Middle School
Midlothian, Texas
